New

In Progress

Closed

In Process

Pending

New = samples that have been completed, interpreted and released to you

In Progress = samples that have been confirmed in Web V1, or other action (emailed, etc), but have not been closed

Closed = samples that have been closed (the new 'confirm')

In Process = samples that have been received by the laboratory and testing is currently happening in the lab

Pending = samples that have had labels created and are in transit to the laboratory

 Urgent Action Required

 Action Required

 Monitor Component

 No Action Required

 No Comment

 Not Interpreted

Urgent = 'super' red alert samples, need immediate attention by the site

Action Required = action is needed by the site to avoid potential downtime

Monitor Compartment = samples that have developed a reportable issue and need to be addressed before next routine maintenance interval

No Action Required = sample results are satisfactory for continued equipment use

No Comment = rarely if ever used for a customer sample report, basically a 'data only' report

Not Interpreted = sample report not yet available from the lab, sample either in process in the lab or in transit to the lab
